Visits to Midland Plant & Finning CAT

Wednesday 30th September

Please arrive at MPTT from 09:30am for the tour at 10:00am; lunch will be provided at mid-day (subject to any dietary restrictions), finishing at 03:30pm at Finning CAT

Site Contacts: Mel Evans ; Dean Turner

Addresses: MPTT- Swan Works, Pelsall Road, Brownhills, Walsall WS8 7DL

Finning CAT- Watling St, Cannock WS11 1SL

Health and Safety!

Mandatory PPE for the Tour is full High visibility jacket and trousers, safety boots, hard hat and safety glasses.

Midland Plant Training and Testing (MPTT) offer a wide range of professional training courses on the safe use of materials lifting, extraction and haulage machinery of the types used by the heavy clay industry and other mineral products users, as well as extensive occupational training for their operatives.

Finning Cat are specialist in the supply of heavy plant equipment for optimising the efficiency of quarrying operations and again, across the wider heavy clay and mineral products sector.

The knowledge and insights gained from these visits will be invaluable to all those with responsibility for quarry operations, heavy plant equipment use or engaged with its maintenance, selection and use. They will also give those new to the industry an overview of what's needed for safe and efficient operations, both for heavy clay and the wider quarrying and mineral processing sector.

Spaces are limited, so please contact our Secretary Liam Fairclough by the Email listed above.
