

LET'S DO THE WORK.™

FINNING CAT

TECHNOLOGY INSIGHTS

THURSDAY 4TH SEPTEMBER 2025.

**FINNING UK & IRELAND, WATLING STREET, CANNOCK,
STAFFORDSHIRE, WS11 8LL | SAT NAV: WS11 1SL**

Experience how data can provide the insights to connect machines, operators and sites to drive efficiency and sustainability improvements.

- **Connected machines**
- **Connected sites**
- **Connected people**

Quarry and aggregate industries face evolving challenges. Companies must keep workforces safe, optimise efficiencies, address skill shortages, and manage rising costs alongside growing pressure to adopt alternative fuels. Finning understands these challenges and is committed to working with the industry to develop strategies that improve safety, efficiency, and sustainability.

Join us to see the positive impact of connecting people, sites, and machines.

With networking opportunities, Q&A sessions, complimentary refreshments and lunch included, we've thought of everything.

**Places are strictly limited, so
please register your attendance
by scanning the QR code.**
